

I love America. I love democracy. I love free speech, but the action of Sinclair Broadcasting to control the local media choices in such a way to affect the outcome of an election appals me. You lead me to imagining a Brave New world that is far more frightening than the one we live in, a world where big government is not to be feared, but big corporation. You surely will reconsider this decision. If not, surely the FCC will step in to give local affiliates the right to air regular programing. Thank you.
